

Uruguay has a thriving innovative ecosystem made up of companies, founders, academia and the public sector.

The country is at a unique moment to become a leading regional hub from which to scale to the world.

To drive this change we created the Uruguay Innovation Hub.

URUGUAY LEADS:

REQUEST FOR PROPOSALS: COMPANY BUILDER BIO

Who can apply?

Organizations or consortiums that have, among other conditions:

- A proven Science to Business program
- Demonstrable success stories
- An executive team with a track record and results associated with bio-venture creation processes
- Access to a network of mentors and national and international linkages.
- Ability to invest in selected ventures
- A business model that ensures financial sustainability after the end of the program's funding.
- A proposal that demonstrates a significant impact on the national entrepreneurial ecosystem.

Benefits for the selected Company Builder:

- Operating costs: annual non-refundable financing of up to USD 300,000 to support part of its operation for six years.
- Office space in the LATU Technology Park for its operation for three years.
- Possibility of accessing additional non-refundable support for access to equipment.
- Possibility of co-investing with the UIH in selected ventures after their passage through the program.
