About CISCE

The China International Supply Chain Expo (CISCE) is the world's first national-level exhibition themed around supply chain. It has promoted the connection of upstream and downstream of the supply chain, collaboration of large and small enterprises, cooperation in production, learning, research and application, and interaction between enterprises worldwide. Together with all parties, it strives to build closer global industrial and supply chain partnerships.

The CISCE is hosted by the China Council for the Promotion of International Trade (CCPIT) and organized by the China International Exhibition Center Group Corporation (CIEC). The First CISCE in November 2023 and its second edition in November 2024 were both successfully held in Beijing, garnering significant international recognition. The third CISCE took place from July 16th to 20th, 2025, at the China International Exhibition Center (Shunyi Venue) in Beijing, achieving unprecedented scale and substantial outcomes. Vice Premier He Lifeng of China attended the opening ceremony and delivered a speech. The event was honored by the presence of South African Deputy President Paul Mashatile, who led a national delegation. Thailand participated as the Guest Country of Honor, dispatching a high-level delegation to attend and exhibit. Over 40 leaders from Fortune Global 500 companies attended the Expo. Notably, NVIDIA founder and CEO Jensen Huang remained in Beijing throughout the four-day expo to engage in CISCE activities.

The Fourth China International Supply Chain Expo will take place in Beijing from June 22nd to 26th, 2026!
